Relief Next Wednesday

We suspect that with the arrival of next Wednesday more people than the winning candidates in Tuesday's primary will be happy. Even the losers may feel some relief that their hot and exhausting campaigning is over for awhile.

Even though political advertising gives them added income, a lot of publishers, and particularly their employees will be glad of a rest. At least the Echo's publisher will be.

The gubernatorial campaign was dull until Candidate Charles Sullivan lived it up a bit with his late start. His large vote indicates an individual to be considered in future state politics.

On the county level, Sheriff Candidate B. Zengaling's third place vote may well have surprised many people, and points to him as a major candidate in future elections.

In any event, next Wednesday many whose thoughts are now on politics will have to start thinking of clothing and supplies for back-to-school days, or of a vacation ending or of earning enough money to pay the large bills that seem to always accompany Christmas.

The Echo personnel might even get in a little fishing.

Hope We're Wrong

In his winning campaign for reelection Highway Commissioner John Smith promised two things of particular benefit to Hancock County. If reelected he promised to next spring let the contract for rebuilding the Kila Road. Without setting a time limit he also promised to four-lane Highway 90 to Route 43.

While no time limit for the latter was set, it is reasonable to expect that some appreciable start on the four-lane project will be made during the term for which Mr. Smith was running. The Echo would prefer to see Mr. Smith keep a promise to four-lane Highway 90 to the Louisiana line, but admits some merit in Mr. Smith's argument for the shorter distance.

This editor will make a promise of his own. If Mr. Smith keeps these two promises to the extent indicated above, the editor will recant some of his harsh thoughts concerning Commissioner Smith.

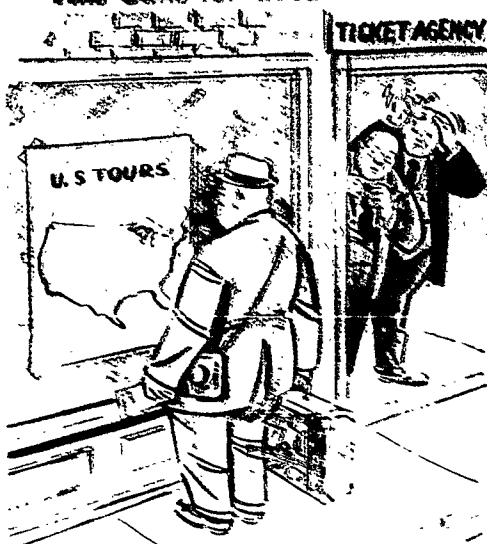

We're glad to see that the Commission Council and the Park and Playground Commission of Bay St. Louis have offered a \$50 reward for information leading to the apprehension of those responsible for the vandalism of the city's beach and pier. If the reward runs down appreciably the damage being done it will enable improvement of one of the city's valuable assets.

Our information from several sources is that this year has been a particularly difficult one for those responsible for road maintenance. The frequent rains made it impossible to repair small holes in many roads before they became large ones since asphalt will not adhere to a damp surface.

JP Candidate Russell Elliott must have planned well in advance to run for office. Mrs. Elliott gave birth to a baby girl last Sunday, giving the voters one more reason to vote for Elliott.

The way our phone rings all the time wonder what Bay St. Louis did 61 years ago? This week marks the telephone company's 60th anniversary in BSL.

Congressional Sidelights

By Rep. WILLIAM M. COLLIER

LABOR LEGISLATION

The House in the latest legislative fight of many years, finally passed a labor-reform bill last week. It has before it three bills: the Shelley bill, the so-called Committee bill, and the Landrum-Griffin bill. The Shelley bill received only a handful of votes. The real fight was between the so-called Committee bill and the Landrum-Griffin bill. After three days of debate, the House subcommittee on the Landrum-Griffin bill for the Committee bill by a vote of 229 to 201. On the motion by Keating, R.-Pa., to recommit the bill, the vote was 148 for recommitment and 281 against. On final passage of the bill, the vote was 305 and 125.

It is interesting to note that better than 90 per cent of the members from the 11 Southern States voted for the Landrum-Griffin measure and that they voted 78 per cent for the Landrum-Griffin bill on final passage.

While many will charge have been made about the legislation in the effect that it would curtail organized labor, the fact remains that there is nothing in the bill that would prevent a single American working man from voluntarily joining any union of his choice. The bill will not prevent a union from negotiating collective bargaining contracts, with the traditional right to strike. It will not prevent any union from organizing employees in the traditional and legitimate way and securing exclusive bargaining rights through a legal election or through voluntary and uncoerced employer recognition. It will not penalize honest union members. It will only curb dishonest and power-grabbing leaders. It will protect the rights of the union member and protect him and his union from the dishonest and unscrupulous leaders. In the words of Sen. John McClellan, the man who more than anybody else, is responsible for disclosing the racketeering, embezzlement and gangsterism in some of these unions: "The bill (Landrum-Griffin) is not designed to penalize that which is good, but only to prevent that which is evil."

In a word, the purpose of the House-passed bill is to protect

the rank and file union members and the public from the racketeering and power-grabbing labor leaders. We believe that the public and labor generally will welcome it. As we pointed out in this column heretofore, the public should not take the view that all labor leaders are racketeers, gangsters and hoodlums. The legislation is not aimed at honest labor leaders as well as the honest working men and women are entitled to protection and many of us are convinced that they would like to see their unions freed of the ex-convicts, gangsters, and would-be dictators who have weakened their way into the unions.

The House and Senate bills will now have to be reconciled either in conference or by Senate passage of the House bill. Of one thing we may be sure, whenever a bill comes out of conference, it will be weaker than the House bill.

My Favorite Prayer

JAMES T. O'CONNELL
Under Secretary of Labor, Washington, D. C.

St. Joseph - model of all devoted to labor - help me to develop by labor all the gifts I have received from God to work conscientiously, putting duty above inclination; to work in moderation and in patience, with purity of intention and with unselfishness, and without ever slinking because of weariness or difficulty. (Paraphrase of St. Paul's prayer to St. Joseph).

Idle Acres Can Be Used for Profit

The Yuletide thrill of decorating Christmas trees, a custom which has thrilled the hearts of millions for more than 400 years, can possibly provide a thriving industry for Mississippians. Growing trees for Christmas decorations could be big business with a minimum of work.

The most suitable tree would be the Arizona cypress, a fast growing evergreen with strong limbs to support ornaments. From one acre of land unsuitable for cultivable crops, a farmer could grow 1,000 trees in four years, selling them on the market for \$1,000. The cost would be approximately \$225. Approximately 500,000 trees are used in Mississippi annually.

Growth of Pines Exceeds Cutting

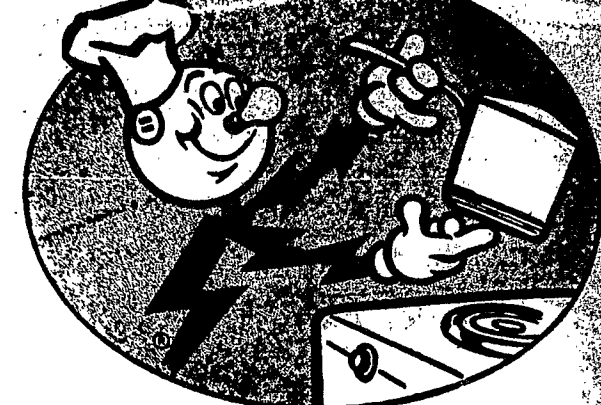

The timber industry in Mississippi is a major asset. Sixty years ago, it was predicted that by 1930 we would have no timber, but the tide has changed. Today, the growth of southern pine greatly exceeds the cutting. These statements are significant and their hope and meaning can be studied.

SOUND LEADERSHIP IS EXEMPLIFIED BY ACTIONS AND NOT MERE WORDS!

In a few days you will go to the polls to vote for the men in whose hands you will put the welfare, safety and future of yourselves and your community. It is the duty of each of us to elect capable, qualified officials.

It is my opinion that my opponent is NOT qualified for the important office of Supervisor. He is citing his job as Tax Collector in Waveland as proof of his ability. However, a few months ago, members of the Waveland Town Council inserted into their minutes a motion to compel him to stay in his office to perform his duties!

Since my opponent has stated that in his opinion the funds of Beat 5 have been very poorly managed, I feel compelled to call his attention to the CONSTRUCTIVE SPENDING and SOUND MANAGEMENT of our tax funds during the time I have served as your Supervisor.

1. SEAWALL BONDED INDEBTEDNESS

1926, original bond issue	\$1,250,000
Paid in 26 years, from 1926 to 1952	\$ 233,000
PAID IN LAST 7 YEARS	
During my tenure of office	\$ 592,000
Balance	\$ 425,000

2. ROAD & BRIDGE FUND BONDED INDEBTEDNESS

1951 Still owed	\$272,500
Paid during my 7 years in office	160,000
Balance now	112,000

3. HILL BURTON HOSPITAL, \$472,000

Although for YEARS, others have tried to get a hospital and failed, we SUCCEEDED this year after much determined effort. A modern, well-equipped hospital (for both white and colored citizens) is now under construction.

4. HOSPITAL SITE

\$19,000 was spent in 1954 to purchase grounds for our new hospital.

5. ELEVATED TANK & ARTESIAN WELL

At a cost of \$50,000, this had to be built for the new hospital before the contract was let.

6. OLD FOLKS HOME

\$46,000 was the cost of this attractive, comfortable home which was built in the rear of the new hospital grounds with the foresight of saving thousands of dollars by not having to buy another building site, as well as having the advantage of close medical attention for the old folks.

7. AGRICULTURAL BUILDING

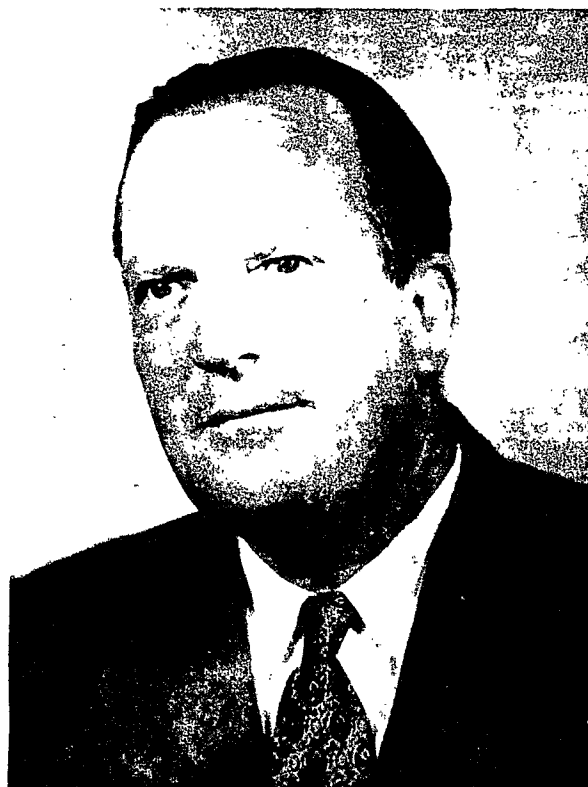

\$60,000 was paid for improvements of this building which is used to house many of the county offices.

8. ADDITION TO COURT HOUSE

This improvement cost \$30,000.

9. AIRFIELD

Although for years others talked about building an airfield, and had purchased a small site, AFTER I was on the Board we purchased more land and built, with county labor and equipment, the landing strip which is now so much in use by visitors, residents, and aviation enthusiasts.

10. SAND BEACHES

\$60,000 was actually a small cost for the four beaches we built last year, which have been such an attraction and pleasure for our people as well as our visitors, and an increase in revenue for so many of our merchants. These beaches have indicated the value of protection to our seawall during high, rough tides, and it is hoped that we can continue to add to them in the future.

11. FILL ON BEACH

Between Carroll & Ulman Avenues, the section of beach front which was washed away in the 1947 Hurricane was built at a cost of \$12,000.

12. SEAWALL BETWEEN CARROLL & ULMAN AVENUES

At a cost of \$20,000, this section of seawall was built 10 feet deep to protect the embankment.

13. MAIN STREET

"Blue Meadow Road", as it is called, was hard surfaced at a cost of \$30,000 three years ago.

14. WASHINGTON STREET

This was hard surfaced recently at a cost of \$7,000.

15. ROADS BUILT

Many miles of roads have been built in every part of Beat 5, which were, before my tenure of office, only recognizable on maps.

16. WELFARE

Nearly \$10,000 a year is what the Board of Supervisors is now contributing (in rent & salaries) to aid in the distribution of Commodities.

17. NATIONAL GUARD

The Board of Supervisors contributes to the rent, put culverts in the driveways, built septic tanks, drilled a well and installed gas for the Armory.

18. ROAD EQUIPMENT, \$197,000

In its entire history, when has Hancock County EVER had the amount of fine equipment such as we have acquired in the last 7 years? Many miles of roads have been black-topped in our county with this machinery. The latest big project now under way is the hard surfacing of the Lower Bay Road, behind Clermont Harbor and Lakeshore, amounting to \$154,000. The people in these communities have for YEARS been NEEDING an outlet such as this. Now that I have Beat 5 operating on a sound, cash basis, if I am re-elected, I plan many more miles of hard surfacing.

19. CONTROL OF ANTHRAX

At least \$4,000 has been contributed toward this project.

20. HOME DEMONSTRATION

At least \$1,000 has been given to this department.

21. LABOR SURVEY

Recently \$1,000 was allocated by the Board to this fine project.

22. AMERICAN LEGION

\$1,000 was given to help build a home for the American Legion.

23. VETERANS OF FOREIGN WARS

\$1,000 was given to help build a home for this organization.

24. THOUSANDS OF DOLLARS

Were spent on other worthy and necessary projects which all contribute to the progress of a community, such as the CHAMBER OF COMMERCE, 4-H CLUBS, ADVERTISING, and RABIES CONTROL, and many, many others which space does not permit a detailed account of.

These accomplishments were made during my 7 years on the Board of Supervisors, IN SPITE OF THE FACT THAT WHEN I TOOK OFFICE, ALL FUNDS IN THE SEAWALL AND BEAT 5 WERE PRACTICALLY EMPTY!

It seems my opponent does not know what has been going on in his own County! Most of our interested, thinking citizens DO, judging by the large vote I received in the first primary over 8 opponents.

I appreciate your vote of confidence in my ability to manage your County affairs, and pledge continued progress.

RE-ELECT

ACCIDENT SCENE—A second traffic accident, a month to the day, occurred at Washington and Third Streets Friday morning when Laddner, J. Haas of Kila collided with Paul M. Miller of Bay St. Louis. Mrs. Tom Garner was injured last month in a similar accident at the intersection.

Dead Patrolman Two Accidents Often Worked Listed in Week In This Area

A motive has not yet been established in the tourist court slaying of highway patrolman H. L. Duckworth, 42, by Jackson attorney Thomas B. Gambrell, 33.

Duckworth had been with the state patrol since 1947, serving many times in the Hancock County area, according to Patrolman W. P. Kenny.

The patrolman was shot in the back about 12:45 a.m. Wednesday in Gambrell's room at Marco Courts in Hattiesburg, Gambrell and Duckworth were distant cousins and were reared together in Covington County.

No preliminary hearing has been set for the attorney. He was arrested by Sheriff Ford Vance and patrol inspector Bud Gray at the tourist court about an hour after the shooting and charged with murder.

Duckworth had gone to the court with patrolman Ernie Ray, after being asked by friends of Gambrell to locate the lawyer. Ray, who remained in the car, did not hear any shots; but within five minutes Duckworth staggered out of the cabin and said "Take me to the hospital, I'm short."

Duckworth begged Ray not to shoot Gambrell, who was standing in the doorway. He died on the way to a hospital and did not tell what happened in the cabin prior to the shooting.

Duckworth was survived by his wife, his mother, Mrs. Lela Duckworth of Taylorville, and three sisters, Mrs. E. Cowart of Biloxi, Mrs. J. W. Jordan of Cincinnati, Ohio, and Mrs. M. S. Gray of Scott.

voted for her just to make her "feel good." I'm not going to run again," she stated.

A total of 35 absentee ballots have been mailed to voters in the county, according to the Clerk's office. This includes the transportation workers who must vote in the office within the 10 to two day period before the election.

Totals for Lamar and Pearl River Counties in votes for the senate race are as follows with the Lamar County total first: Charles R. Holladay, 260, 777; Quintan Lott, 2,149, 773; James L. Mayfield, 319, 388; W. L. Moseley, 162, 1,765; Henry Oetenschlag, 567, 381; C. E. Rouse, 891, 1,764; and Charles Donald Wahl, 118, 148. A runoff between Oetenschlag and Lott will be held Tuesday.

Other runoffs will be state governor; state tax collector; sheriff; tax assessor; superintendent of education; supervisor for beats 1, 2, 4 and 5; justice of the peace for beats 2 and 5; and constable for beats 2, 3, 4 and 5.

Series of Robberies Hit County at Weekend

Two New Orleans youth, apprehended in Florida, have admitted robbing three local business establishments and an auto, while a bulletin has been issued for the arrest of another youth in connection with a robbery of a local residence, according to Sheriff Sylvan L. Laddner.

Laddner said he was notified by officials in Marianna, Fla., that Lloyd J. Borel, 16, and Anton Joseph Silver, 19, admitted the Bay St. Louis robberies after having been questioned by Patrolman E. E. Anderson. The two were picked up by Anderson, who said they were acting very suspiciously.

They were driving an English Austin with convertible top which had been stolen from a New Orleans doctor. The youths carried a wallet taken from the station wagon of R. J. Hadden of 119 Audubon, New Orleans, parked on North Beach Boulevard. A check with Hadden by Anderson revealed that the wallet had been taken when the car was burglarized Saturday night, Laddner said.

The youths admitted robberies of N. A. Pernicelli Amoco Service Station taking 30 pennies, three one-half gallons of ice cream, candy, gum, and a gas can. Olen Department Store, an undetermined amount of men's clothing, and Stevenson's Radio and Electric Service, five fans, two transistor radios, three flashlights and two electric razors. They also took a fishing box and fishing equipment from the Hadden auto. Entry was made through windows in the robberies, Laddner said.

The youths, who were on probation by Louisiana officials, are being held in Florida by the FBI. A detainer warrant has been issued by Laddner.

A warrant and bulletin has been issued for the arrest of Lloyd R. Welch, 20, of Tennessee who robbed a residence on U. S. 90 late Sunday night.

Fingerprints were taken by Laddner on the scene of the robbery Monday night of a large safe at R. F. Mestayer Lumber Co. in Waveland. Nothing was taken except a pair of bolt cutters and two crowbars since the safe only

business papers. Entry was made after cutting the wire on the back gate and prying a lock off the office door. The door was broken off the side, said Laddner.

All robberies were investigated by Laddner and City Police-man Jack Laddner.

been the first operator. He does recall that his family's telephone was the 32nd installed when they lived in the country at Edwardsville and how they had to furnish the poles for the lines and take out three phones to warrant service.

Since those days there has been a continuous increase in the number of subscribers with the exception of the period between 1930 and 1940.

In 1920 the number had increased to 339; by 1930 to 626. At the end of 1940 there was a slight reduction to 530 stations, but since that date the growth has been phenomenal. In 1950 there were 1,614 telephones in service and today there are 3,122 telephones including 157 served in the Logtown area.

Many developments have occurred during these years that have been to the interest of the telephone users in Bay St. Louis and Hancock County. These include, in addition to the increase in telephones, provision of service to the Logtown area and the Kila area. There are plans now under consideration for serving many more rural customers in Hancock County.

During recent years the old manual system has been replaced by a modern dial system and one of the most important steps has been to provide local service to and from Pass Christian and the elimination of toll charges between these two exchanges.

WHY SHOULD THE COLEMAN-GARTIN ADMINISTRATION EXPECT HANCOCK COUNTY TO VOTE FOR CARROLL GARTIN???

For the past four years it has been the forgotten County by Mr. Coleman and Lieutenant Governor Gartin.

1. Hancock County has not had any representation on the Seafood Commission since August 29, 1958. The Coleman-Gartin Administration has played cheap politics with this important position promising many, but politically afraid to make an appointment!!
2. Besides not having any representation on the Seafood Commission, nothing has been done for the seafood industry in Hancock County and along the Coast for the past four years.

3. Industry for our County? It's a joke! To have a representative of the State Industrial Board to make an appointment to come down to a group luncheon called from Jackson at the meeting time that he was grounded due to bad weather - arriving 3 weeks late.
4. We have a Game Warden vacancy. Many have promised the appointment, but only one can be expected.

The Present Coleman-Gartin Administration Has Made a Racket Out of the State Highway Patrol in our County for the Past Four Years.

A. Instead of patrolling U.S. Highway 90 in our County in an effort to minimize traffic accidents and deaths and to be courteous and extend hospitality to visiting tourists, the Highway Patrol has frequently concentrated four and five patrol cars a day, with a force of at least seven or eight patrolmen within and near the City of Bay St. Louis limits, operating a radar control.

B. Even during the week of the Bay St. Louis Centennial Celebration this vicious racket was operated within the City limits in a restricted zone and hundreds of warrants for arrests were issued our visitors instead of a greeting.

C. It has appeared that one individual in this County has had a monopoly on the wrecker service for many years on U. S. Highway No. 90. Why???

The Coleman-Gartin Administration has increased the automobile personal tax and forced you to pay one year in advance, levied a property transfer tax of \$2.50 per year, and, along with other taxes in order to have a total of more than \$30,000,000.00 in the State Treasury at the present time. Now Mr. Coleman, Gartin's chief supporter, talks about calling a special "lame duck" session of the Legislature to spend what he has exacted from

Wiggins Librarian Probes Visit of Father Ryan Here in 1872

Research into the lecture given here in 1872 by the first President of the Confederacy is now underway, Mrs. Katherine Wiggins, City-County Memorial Library librarian.

The reason for information about the visit of Father Ryan, who came from New York, is that the lecture was delivered some time in August, 1872, at Bay St. Louis for the benefit of the Catholic Church, according to the Special Issue of that year of the Morning Star in New Orleans.

Ryan suggested that the "Sea Coast Republican," a newspaper, circulated in Hancock County at that time might carry an account of Father Ryan's remarks.

RECENT CITY VISITOR—Gov. elect Paul Johnson of Hattiesburg passes by his car Monday afternoon while stopping for a short time on his way home from New Orleans. Johnson received a hearty vote in the first primary elections in Hancock County and stopped by to express his appreciation.

pay for school employees and teachers, increasing aged relief and completing the road program. He also called for a \$1,000 exemption on the automobile ad valorem tax, saying the time has come when an automobile or a pickup truck is no longer a luxury but a necessity.

Appealing to Hancock County residents for support, he commended the county for its fine support of Charles Sullivan for governor in the first primary and said, "I hope you will find in me some of the qualities you found in Charles." His appeal included Sullivan, Mason and Barnett supporters to rally for him.

In introducing Gartin, Leo Seal Jr. said the fact that Hancock County has voted so strongly for Sullivan and that they had asked him to introduce Gartin is proof that the people are willing to trust responsibilities to younger men. It is also proof, he said, that the people would rather have a young man like Gartin for governor than "that damage suit lawyer from Jackson."

Attacking his second primary opponent, Ross Barnett, Gartin said, "He has never served the people of Mississippi one day in his life." He charged Barnett with advocating removal of half the corporation income tax by 1960 and the other half before he gets out of office. Gartin said the retailers manufacturing association, a group which pays the tax and has the economical interest of Mississippi at heart, recommends the tax be reduced gradually, at one half of one percent a year. He charged that if Barnett's plan becomes a reality, the sales tax would have to be raised.

Gartin said he would be ready to move forward with an industrial program that has brought 403 industries to the state since he has been lieutenant governor. He promised to continue the industrial program and refused earlier Barnett charges that he would destroy the present program. Gartin said, "I want to get the country people out of the mud, develop the tourist trade and begin a program to develop smaller communities."

He advocated a program and an agency exclusively for the

development of smaller communities and a program to build a hard surface air strip in every county in the state.

"I will veto any effort to repeal the right to work law. I want the working people of this state to know they have a friend in Carroll Gartin," he declared.

Others speaking at the rally included Russell Elliott candidate for Best 5 justice of the peace who dispelled rumors he said were passed by supporters of his opponent that he is a wealthy man. Randolph Bourgeois, also candidate for JP, referred to Elliott as a "boy lacking experience in making decisions. Bill Flint spoke for candidate for state tax collector, William Winter. Following Gartin's speech, Gerald V. Price Sr. spoke on his candidacy for sheriff.

Suit Involves Winn-Dixie Store Builder

Jehle Brothers, Inc., contractor and builder of the structure now occupied by Winn-Dixie-Hill Food Store on U. S. 90, filed a civil suit Tuesday in Circuit Court naming five parties as defendants.

Jason H. Floyd, counsel for the plaintiff, is asking payment of \$17,569.66 which allegedly is still owed the contracting firm for the construction plus six percent on the amount, court costs and an order for the sale of the property for payment.

Named as defendants are Johnson Realty Co., Inc., New Orleans, with which Jehle Brothers entered into the construction contract; Allen H. Johnson Jr., New Orleans, owner of a part of the property since April 14, 1958; Winn-Dixie of Louisiana, Inc., New Orleans, which leased the building and premises; and The Equitable Life Assurance Society of the United States, New York, which executed a deed of trust upon the property with Allen H. Johnson Jr. for a loan of \$100,000 plus interest.

The suit states that Jehle contracted for a price of \$109,156 and was only paid \$91,586.34 on progress payments, leaving a balance of \$17,569.66 payable on or about Oct. 10, 1958, when construction was completed. The remainder of the payment was often requested but never paid.

The suit states that the plaintiff does not seek to obtain any relief that would adversely affect the leasehold of Winn-Dixie. The case is returnable to the September term.

Meitzler Takes Engineer Training

Army Recruit Sidney P. Meitzler, 18, son of Mr. and Mrs. Curtis C. Meitzler, Rt. 4, Picayune, completed basic engineer training Aug. 7 at Fort Belvoir, Va.

He received instruction in map reading, bridge, road and airfield construction, and mine warfare. Meitzler entered the Army last April and completed basic training at Fort Jackson, S. C. He attended Picayune High School.

Two new individual commuter tickets went on sale Aug. 10 with the Louisville and Nashville Railroad and are receiving good response.

The tickets, which were negotiated by Rudolph V. Vorse, president of the Gulf Coast Association, are a personal 10-trip ticket book and a 20-trip ticket book which are good for 31 days. The commuter will save the 10 per cent federal since the ticket will be used within a 31 day period.

The ten-trip book sells for \$13.90 and the 20-trip book sells for \$27.80, according to Miss Grace E. Willett, Bay St. Louis freight and ticket agent.

Vorse has estimated purchase of the 10-trip ticket book will save the Bay St. Louis commuter an average of \$166 a year.

law which prohibits profane and indecent language over the telephone. Its use, he continues, is injurious to his reputation, having been engaged in the real estate business in Hancock County for the last eight years and being known for his fair dealings with the public.

In the federal action, the plaintiff avers on Aug. 8 the defendants formed an unlawful conspiracy to attempt to intimidate him and falsely and maliciously to procure him to be complained of and arrested for alleged crime, citing violation of his rights under the 4th, 5th and 14th amendments of the U. S. Constitution.

His complaint is based on the argument that the Rhodeses and Greyhound, "employed privately and under color of office, Mazarakis to unlawfully and without warrant, writ or other legal process" to invade the plaintiff's home after dark and to allege in public that he was liable to arrest, seize and destroy his private documents and property and attempt to arrest him without cause in a public place later that night.

He charges that the defendants incited and conspired and had the constable while armed assault and abuse the plaintiff later that night at Compretta's Restaurant, including Norman Compretta and Joseph Compretta, and Carl Garcia that he was going to arrest Linam.

Linam alleges that his intimidation and threats of arrest and assault invaded his civil and constitutional rights and subjected him to public humiliation. Counsel for the plaintiff is the firm of Russell and Favre.

With a bid of \$47,000, August Rauxet, Jr. has been awarded a contract to build new homes in Waveland for employees of Tennessee Gas Transmission Co.'s new pumping station at Anasay.

Each of the homes will cost about \$14,800 with the exception of the supervisor's house being built in the Mollere subdivision which will cost about \$15,600. This house, Rauxet said, is of brick veneer construction,

whereas the others will be beston siding.

All dwellings will have floor heating, central air conditioning, ample closets. Each contains a den, living room, kitchen, garage, a ceramic tile floor.

In addition, Mollere's subdivision will be one in left hand, Gulf Gardens, Lane, and two.

Rauxet said that he has been working on the project since August 3, but every day he has been making progress for completion. Rauxet said that the weather from the finish about Nov. 1 are to move into construction is complete.

Set Benefit Match

A shooting match and rally for political candidates will begin at 10 a.m. Sunday at Earl Garcia's service station on U.S. 90 for the benefit of his grandson, R. J. Sims Jr., who is a patient at Ochsner Foundation Hospital, New Orleans, where he underwent surgery for removal of a kidney.

Barnett's main qualification for the governor's job that he has run three times.

How many promises do you think he will have to fulfill after three campaigns?

\$1,000 EXEMPTION ON YOUR CAR OR PICK-UP TRUCK

Carroll Gartin says the present Homestead Exemption law should cover up to \$1000 on automobiles or pick-up trucks.

"An automobile or pick-up truck is no longer a luxury — it is a necessity and should be recognized as such. Mississippians are now paying ad valorem taxes, buying tags and buying liability insurance in addition to the cost and taxes on gasoline and oil. They need help," Gartin said.

Carroll Gartin has announced that as Governor, he will use the power of his office to extend the Homestead Exemption law for an exemption of up to \$1000 on these necessities.

CANDIDATE FOR

SHERIFF AND TAX COLLECTOR

Next Tuesday August 25, 1959, the die will be cast. You, and only you, the voters of Hancock County will make known your decision as to your choice of candidate for the very important office of your Sheriff and Tax Collector. As this is my last opportunity to make an appeal for your kind and thoughtful consideration in my behalf for this office, I find that I must add, with real humility, that it is gratifying to see many of the voters have reached back into the past to remember the devotion to duty which I showed while serving you for many years in another law enforcement office, a fact which is proven by the results of the First Primary.

Next Tuesday, August 25th, you will have the opportunity of electing a Justice of the Peace in District 5, and I sincerely hope throughout this campaign I have been able to convince you that I would make a good Justice of the Peace.

I ask you to please consider both candidates, check our qualifications, then go to the polls and vote your own convictions next Tuesday. Thanking you once again for making me the leading candidate into the Second Primary, I humbly ask you to please rally to my support by electing me your Justice of the Peace on August 25th.

RUSSELL ELLIOTT

You Now Have The Opportunity To Elect A Qualified Impartial Justice Of The Peace

CANDIDATE FOR JUSTICE OF THE PEACE

I have never campaigned on the shortcomings of my opponents, only on my own merits and qualifications. When elected I will operate my court for the best interest of the community instead of a personal gain. I will operate my office as one of dignity, respect and as an honorable Court of Justice. I will assist in the growth and progress of our community by extending myself beyond the prescribed duties of a Justice. I have not resorted to any unfair methods of criticism or mud-slinging. I have not cried poor month nor asked to be elected because I need a job nor am I running on a sympathy ticket. I feel it is only fair to disclose a few of the many rumors that are being circulated against me: Whereas it has been said that I am wealthy and do not need the office I would like to disprove this because this rumor is based upon the financial status of a

completely unconnected party, my in-laws. I am strictly on my own and intend to raise and educate my family by my own endeavors. At the Carroll Gartin Rally Tuesday night, my opponent made his first and only appearance on the stand (after I spoke) and in a strenuous effort of a last minute "dig" accused me of a dreadful thing. He called me a "boy" and himself an old man. Youth opposed to age is no longer the dividing line between efficiency and success. Will you please recall that in the First Primary, a young man by the name of Charles Sullivan, 35 years younger than I, at the age of 34 years, led Hancock County over his opponents for the highest office of the state, the Governorship? I suppose if my opponent calls me of the age of 37 1/2, a "Boy" he would call Sullivan at the age of 34 a "Kid." From the results of the votes it is obvious that the people of Hancock County have a lot of confidence in the younger men holding office.

Gratefully yours,
Russell Elliott

Shoulda Gone Fishin'

By DAVID WEBB

The shrimp were running this along with no telling how many political candidates. "Like the town meeting hall," some said of the many people on the sea wall. We noticed Buddy and Fred Bourne and Fred Bourne too. Buddy looked like he was fishing. Fred appeared to be "fishing." No one knows who caught the most, but it was a lot of fun for hundreds of people who perched on the sea wall and threw their nets.

The fishing must have been very good the last few days, at least for some, from the number have in the column this week. Mr. and Mrs. J. L. LeFant and Mrs. Ronald LeFant from New Orleans and Thom Thum from Clermont Harbor caught 97 off of Half Moon last week. They weighed up to four pounds of shrimp caught using live shrimp as croaker for bait.

A Mr. Browning from Baton Rouge who summers in Clermont Harbor caught a six pound-one ounce redfish in Bayou Caddy weekend.

A few days ago we saw Ronald Merrill, 12-year-old son of Mr. and Mrs. H. L. Ferrell of Waveland, walking home with three crabs and eight crabs he caught at Weaver's Bayou. He had shrimp and a casting rod. He reported his dad caught crabs six flounder and a cat that morning at Jackson using shrimp on a spinning reel.

Larry Tillman caught eight crabs Tuesday night from the Bridge using dead shrimp as casting rod.

James Pugh and Jessie Martinez are getting the reputation of being hard to beat in shuffleboard.

Top League Spot Is Tied Up Again

C & S in a second game thriller Tuesday night handed Georgi's its second defeat of the season putting the ever-changing top position back into a tie between Trapani's and Georgi's.

In the opener, Southern Realty hit a luckless KC team for a 16-8 loss. Friday night's games scheduling KC's vs. Georgi's and Trapani's vs. Stiefel were called because of rain.

Thursday night before rain chased players, fans and all from the field, Youth Center trounced Southern Realty 12-8 to gain fifth spot in the league.

As the season's closing nears some decisive games are scheduled for this week. Tonight Trapani's goes against REA and Youth Center is scheduled to play Regal. Friday night will see Georgi's and Southern Realty in the opener and C & S against Stiefel. C & S is placed against KC's Tuesday night in the opener and Youth Center will see action with REA.

North Central Begins Grid Practice Work

North Central Hawks' coach Truman Schultz had his work cut out for him as he began putting 45 rookie football aspirants to the tests Monday in the team's first pre-season practice session.

Almost none of the boys coming from Kila, Dedeaux and Sellers have any experience on the gridiron, coming from basketball powers that did not offer football to 1957 before giving it up. The school had not had football in 16 years.

Schultz has five weeks before the season opener Sept. 25 against Bay High School to whom football is no stranger having been a strong contender often in the old DeSoto conference. The school plans to play only "B" teams this year and therefore will not be eligible for competition in the Gulf Coast Conference of which it is a charter member. Schultz plans to enter his team in regular competition next season.

James Johnson, line coach said games are arranged with Bay St. Louis, Pass Christian, Long Beach, and Harrison Central. All Hawks games will be played away this season or until the athletic field is completed.

New Jr. Lifesaving Class Opens Monday

Registration for the next Red Cross junior lifesaving classes will be at 9 a.m. Monday at Gulf View Haven, according to John Rutherford, waterfront safety chairman.

YOUNG SHRIMPERS—These three young shrimpers cast their nets into the Gulf between children and Coleman Avenue, but with little luck. From left is Aggie Orr, son of Mr. and Mrs. Orr, Bay St. Louis; Carlton Sumner, son of Mr. and Mrs. J. B. Sumner, Algiers, La.; and Billy Pierpoint, son of Mr. and Mrs. Robert L. Pierpoint, New Orleans.

Shoulda Gone Fishin'
By DAVID WEBB

The shrimp were running this along with no telling how many political candidates. "Like the town meeting hall," some said of the many people on the sea wall. We noticed Buddy and Fred Bourne and Fred Bourne too. Buddy looked like he was fishing. Fred appeared to be "fishing." No one knows who caught the most, but it was a lot of fun for hundreds of people who perched on the sea wall and threw their nets.

The fishing must have been very good the last few days, at least for some, from the number have in the column this week. Mr. and Mrs. J. L. LeFant and Mrs. Ronald LeFant from New Orleans and Thom Thum from Clermont Harbor caught 97 off of Half Moon last week. They weighed up to four pounds of shrimp caught using live shrimp as croaker for bait.

A Mr. Browning from Baton Rouge who summers in Clermont Harbor caught a six pound-one ounce redfish in Bayou Caddy weekend.

A few days ago we saw Ronald Merrill, 12-year-old son of Mr. and Mrs. H. L. Ferrell of Waveland, walking home with three crabs and eight crabs he caught at Weaver's Bayou. He had shrimp and a casting rod. He reported his dad caught crabs six flounder and a cat that morning at Jackson using shrimp on a spinning reel.

Larry Tillman caught eight crabs Tuesday night from the Bridge using dead shrimp as casting rod.

James Pugh and Jessie Martinez are getting the reputation of being hard to beat in shuffleboard.

Emergency

*What do you do
when you can't wait?*

WHEN A CRISIS COMES

... and you need a prescription filled
at midnight

... or your plumbing starts leaking

... or your car won't start

... or you run out of clean shirts

... or when the cupboard or the baby
is bare

DO YOU saddle up and take a day off
to get the matter taken care of in the
City, or do you write to a catalog
house for help?

OF COURSE NOT. Likely you hardly
recognize these and similar predica-
ments as crises.

Because YOU'VE GOT NEIGHBORS,
right here at home ... with their skill
and their money invested in establish-
ments able to take most of your trou-
bles on their own shoulders so quickly

that you scarcely notice they are dif-
ficulties at all.

But HOW MANY skilled craftsmen,
and good business men, and good
neighbors, and good workers in civic
and church affairs, and good taxpayers
... how many of these have cut down
their stocks, laid off employees, or left
the country ... because all you were
buying from them was the things you
couldn't wait to get somewhere else
... and how many will leave in the
future to go where your money is
going?

Waveland Baptist Now Free of Debt

Waveland Baptist Chapel is now completely free of debt after receiving a \$550 donation from the Gulf Coast Baptist Association to pay off the remainder owed on the educational building and a \$1,100 donation from an interested party, who asked to remain anonymous, to apply on the property debt.

Both donations were received the same week in July and paid all indebtedness owed by the chapel, according to the Rev. Jack C. Hugen, pastor.

Hugen said that the anonymous donor gave the money because of interest in the church's work in Waveland. The chapel was begun in 1951.

COLOR IN ROOM SIZE

Color can change the apparent size of a room. Warm colors, red or orange in them, seem to bring the walls closer together and the room looks smaller. Cool colors, as gray, blue or green, recede. They made the room seem larger and more spacious.

Printing the woodwork the same color as the walls will make the room seem larger.

HIGHWAY PLANTINGS

If you've been planning "to do something" with a strip of your lawn along the street or highway, here are some suggestions.

Where you have a short slope bordering the highway, you can use several common flowers to make a large show at reasonable expense.

Iris is the plant most commonly used, partly because it is available. You can divide iris any time after it blooms, but the best time is between Aug. 1 and Oct. 1. Get your planting done early and you will have blooms the following year. For quick results set the divided plants a foot apart each way.

Yellow and orange day lilies are as good as iris and bloom after the iris. You can divide and reset them at the same time and in the same way you do iris. If you want some of the better day lilies rather than the old fashioned ones, multiply them first in the lawn garden. Later

and the educational addition was added in 1957. Membership is now approximately 75, Hugen said.

use them along the road.

You can plant very shady slopes in English ivy, or periwinkle. On rather steep slopes, use a mulch of straw or pine needles among the plants to prevent erosion.

FROZEN SANDWICHES

Yes, you can prepare ahead of time for your picnic or party by putting sandwiches in the freezer. It also cuts the danger of food spoiling if you take it

Referendum Set In September For Sheep Men

Sheep producers in Hancock County will have the opportunity to vote in September in a nationwide referendum on the question of continuing to finance a market development program for wool and lambs, Chairman Fitzhugh Lee of the county Agricultural Stabilization and Conservation Committee has announced.

The program of advertising, promotion and related activities is carried out under an agreement with the American Sheep Producers Council, which is financed by deductions from wool incentive payment earned by growers under the national wool program.

The agreement has been in effect since the 1955 marketing year, and if approved in the September referendum, will be continued for another three years. Approval requires the favorable vote of producers having two-thirds of the volume of production represented in the referendum.

The new agreement, Lee said, would provide that deductions may not exceed the rates of 1 cent per pound for shorn wool and 5 cents per hundredweight for lambs that have been in effect under the original agreement.

The referendum will extend over the entire month of September to make it as easy as possible for all growers to participate, Lee said. Ballots will be mailed to producers from the ASC county office before Sept. 1 and may be cast and returned through Sept. 30.

It's Time to Order Seedlings For Idle Acreage, Parker Says

"Now is the time to order seedlings to plant those idle acres," says Marion Parker the Mississippi Forestry Commission's area forester for Hancock County.

Landowners ordering seedlings now can count on getting their orders filled. Last year some of the late orders had to be canceled for lack of seedlings.

Before ordering, it is a good idea to examine the land for places needing seedlings. Old fields, eroded land, areas which have had all trees cut except the scrubs, and unproductive upland pasture all may be suited to growing trees.

The forestry commission has loblolly pine, slash pine, longleaf pine, shortleaf pine, spruce pine, yellow poplar, bald cypress, cottonwood, green ash, sweet gum, cherrybark oak, and red cedar growing in the nurseries at the present time.

"Previously Owned by a Little Old Lady..."

Surprisingly, that gentle little old lady who never drove over 30 miles an hour was really tough on her car's motor. The fact is that start-and-stop driving at low speeds means the motor doesn't warm up enough for its own good. Sludge forms in the motor oil. Damage to the engine will result.

Most of us do a lot of start-and-stop driving these days, and that's why it's wise to protect with Phillips 66 Trop-Artic Motor Oil. It flows quickly in a cold engine... resists sludge formation... then keeps on protecting your motor on long hot drives.

Trop-Artic is an all-season oil. Get it from your Phillips 66 Dealer.

Exchange Student Reports

Ever Hear 'Purple People Eater' in German?

An exchange of homes and families for a year is a never to be forgotten experience for two 16-year olds, Parti White of Bay St. Louis and Lisbeth Fenz of Ybbs, Austria.

As exchange students sponsored by the International Christian Youth Exchange, Parti went to live with Mr. and Mrs. Robert Fenz in Austria while Lisbeth spent the year with Mr. and Mrs. Parti White in Bay St. Louis.

Parti returned Aug. 6 with a new Italian haircut, a fluent mastery of the German language and a suitcase full of souvenirs for memories. Laughing about the poodle hair styling she acquired, Parti says, "It really wasn't done by the Italians, we were in Italy when one of the girls in the group wanted to cut it. - and I let her! It was still done in Italy though."

she says, her brown eyes sparkling.

A part and vivacious American teenager, Parti was one of 44 youths selected for the exchange program. Sailing last July 25, the group docked at Bremerhaven in northern Germany and went by train to Vienna where Parti met her foster family.

"I went with Mr. and Mrs. Fenz to Ybbs, 60 miles west of Vienna, in the farming section of the Danube Valley. They had another daughter, Edith, 13, who went to school with me, and a son, Martin, 19, a student at the University in Vienna.

"All the students from Ybbs attended the school in Amstetten, 16 miles away. We commuted each day on a cute, little, rickety train, leaving Ybbs about 6:30 each morning."

The only American student at the school, she says, "At first everyone treated me like a fragile piece of glass, but by the time I left, we were all buddies. I guess I must have been a little fragile," she laughs. "because I broke two vertebrae in gym class and spent two weeks in the hospital!"

"I really didn't do too much in school until after Christmas because I didn't know a word of German when I went over, but by that time I was getting along all right. The Austrian students take 13 subjects a year and the same advanced subjects each year."

"I had classes in everything ranging from physics and Latin to geography and philosophy, my favorite. Even though the schools were very good, you don't have the wonderful teacher-student relations that we have in the States. They seemed very distant and reserved to me."

Parti isn't sure if she'll get credit for her courses but plans to take a German proficiency exam soon for two years credit if she passes, hoping to graduate next spring.

considered your boyfriend if he danced with you at one of the parties. All of the kids thought that jitterbugging was great, but almost all of the dances were polkas," she relates.

"My clothes were considered pretty modern according to the Austrian standards, but much too thin. - Bay St. Louis winters aren't anything like those over there, I froze!"

"All the kids had seen pictures of the cities in the States and they would ask me if it were true. They also believed everything they had ever read about the juvenile delinquents. They seemed to think of America as a

fairytland. I think the girls and boys my age over there would really be considered immature and very young according to American standards," she says.

"One of the funniest things was the translation of the American songs into German. The Purple People Eater became the Chocolate Ice Cream Seller. I loved to hear them sing the songs in their language."

"Since I've been back I've had a hard time changing over. I still catch myself thinking in German and eating with both my knife and fork as the Europeans do, but I'm really glad to be home!"

Male Animal Off, Theater Now Plans Lo and Behold

The Little Theater plans a new play, Lo and Behold, and has abandoned plans to recast The Male Animal, announced Basil Cockshott, publicity director, this week.

A three act fantasy by John Patrick, under direction of Dr. Harold M. Keefe, the play involves an eccentric whose will has some strange provisions. These provisions keep a cast of eight hopping right up to the climax. It is scheduled for presentation sometime in October

after completion of repairs to the stage and theater.

The Male Animal which was scheduled for a return production in September was called off, Cockshott said, because several key members of the cast could not be here.

Mrs. John Husband said the group is planning repairs to the stage that will include new flats and set decorations. Algrid Kuraltis, she said, who did the sets for A Roomful of Roses, is expected to make those for Lo and Behold.

Eichelberger In Sea Fair Parade

Earl J. Eichelberger, engineer second class, USN, son of Mr. and Mrs. Milton E. Eichelberger of Pearlington, and husband of the former Miss Terry A. Burke of North Hollywood Calif., serving on the staff of the Commander of Carrier Division 17, participated in the West Coast's annual Sea Fair Parade Aug. 6, in which ships of the U. S. First Fleet entered Elliott Bay, at Seattle, Wash., in formation.

The parade of ships was followed by a two-day recreational visit to the Sea Fair's exhibits and displays along with witnessing the small boat races. The vessels left the bay Aug. 6, for two days of anti-submarine warfare exercises off the coast of California.

OFFICERS OF THE TOWN OF WAVELAND ENDORSE THE CANDIDACY OF R. G. (MANNY) HUBBARD FOR RE-ELECTION TO THE BOARD OF SUPERVISORS, BEAT 5

We, the undersigned officers of the Town of Waveland, know Manny Hubbard to be a man of the highest character, whose honesty and integrity are beyond question.

Several of us have had the pleasure of working with him when he was an Alderman on our Town Council. Past experience has shown us that he will not stand for any extravagant expenditure of public funds, but will see that for every dollar of the taxpayers' money, the County will receive full value.

He has on every occasion cooperated to the fullest in every move for the betterment of the Community. As Public Officials, we especially realize the tremendous accomplishments that have been made in our County since Manny has been Supervisor.

We unhesitatingly, therefore, endorse his re-election to the Board of Supervisors.
